

AN INTRODUCTION TO

RED FIGHTBACK

WHO WE ARE & WHAT WE STAND FOR

ABOUT US

Red Fightback is a **revolutionary Marxist-Leninist party** dedicated to the advancement of **class struggle** in Britain and the achievement of **socialist revolution**.

We are a diverse group of working-class people from all walks of life, united by our belief in **building a future free from all manifestations of capitalist oppression**.

We have active branches in towns and cities all across **England, Scotland, and Wales.**

Our members organise in their own communities to address the issues they are facing locally.

OUR PRINCIPLES

We stand firmly **against capitalism and imperialism**, and **against the ruthless destruction of people and the planet** for the profit of the ruling class.

We advocate for the **liberation of women and trans/gender-nonconforming people; Black people, Indigenous peoples, and people of colour; disabled and neurodivergent people**; and all those whom capitalism treats as disposable — both within Britain and globally.

We organise according to the principles of **democratic centralism** and **intersectionality**. Everyone gets a say, and no one's humanity is ever up for debate.

We believe that **everyone** can play a valuable role in the struggle to **build collective power** in our communities and **take back our future**.

WHAT WE DO

Our on-the-ground work is based on the methods of **community organising**, engaging with working people through the spaces where they live and work. We do **outreach** through methods such as stalls and surveys to understand and connect with communities, provide **concrete material support** to help people survive day to day, and **build local campaigns and alliances of working class power**.

We *don't* organise with the Labour Party or other bourgeois political groups. We oppose political opportunism, and we are **committed to organising among the working classes, to create a movement by and for working and oppressed people**.

At the national level, we **build campaigns and coordinate our work under one united strategy**, working with different organisations across the country and world for a revolutionary future.

We also run an **educational programme** in which our members guide new applicants and each other in the study of **revolutionary theory, history, praxis, and conduct**, in an accessible and collaborative way.

Members also produce content for our website and social media, **explaining political issues** and **analysing current events** from an **intersectional Marxist-Leninist perspective**.

We try to break things down so that anyone can understand them, and show how the **different struggles of oppressed people under capitalism are interconnected**.
